

DSD Black Armour Flocking Kit

Contents:

- 1-4oz. Bottle (A) Component
- 1-4oz. Bottle (B) Component
- 1- Bag of Black Flocking
- 1- Dust Mask
- 1- 1 ½ inch broad application brush
- 1- ¼ inch fine detail application brush
- 2- Pairs of Latex gloves
- 2- Stir sticks

Instructions:

1. Wash surface of decoy heads with soap and water and allow to completely dry before applying Black Armour Flocking.
2. Mix equal parts of Component A to Component B in a separate container (not included) using stir stick and allow to sit for 20 min. before applying (**only mix as much as needed for each application, once Black Armour is mixed it only has a 1 hr. working time and cannot be reused**)
3. Apply flocking glue using the broad application brush and the fine detail brush where necessary.
4. Sprinkle excess flocking fiber over glue and gently press with fingers (wearing Latex gloves), recollect flocking fibers and repeat process until head is completely covered.
