

DSD TURKEY DECOYS

CARE & INSTRUCTIONS

Congratulations! You are among an elite group of dedicated hunters. Your experience has led you to choose Dave Smith Decoys. We have found that hunters who know and choose the very best equipment are also more likely to put forth more effort in the way of scouting, hunting and calling. Also, they have a great deal of respect for landowners, land, wildlife and hunting ethics.

Thank you for choosing our products. At DSD our mission is to stay at the top of the industry in terms of quality, customer service, and most importantly, effectiveness in the field.

We make all of our decoys with pride in the USA! When you purchase a DSD you can feel good knowing that you are supporting American jobs and the US Economy.

HANDLING & SAFETY

For safety purposes, your decoy should be placed inside of the provided carry bag at all times during transport to and from your hunting location.

STAKE STORAGE

Every turkey decoy that uses a stake has a storage hole on the underside of the decoy. Store the motion stake in this stake storage hole of your decoy where it will remain safe, quiet and with your decoy when you need it. To store your stake, slide the motion stoppers to one end of the stake and insert the stake from the opposite end. Slide the motion stake into the storage hole until it comes into contact with the opposite inner wall of the decoy.

Warning: Do not use the decoy to drive the motion stake into the ground as this can damage the decoy.

MATING MOTION PAIR

CARE & INSTRUCTIONS

HARDWARE KIT INCLUDES

- (1) Mating Motion Jake (a)
- (1) Mating Hen (b)
- (1) Handle (c)
- 60 ft of Cord (d)
- (1) Duo Lock Snap (e)
- (2) Eye Lags (f)
- (1) Jake Stake & Motion Stoppers..... (g)

ASSEMBLY

STEP 1: Lay the mating hen on the ground, roughly facing you.

STEP 2: Push or screw each eyelet into the ground, one just in front of, and one just behind the mating hen.

STEP 3: Lift the hen out of the way and run the cord through both eyelets. Replace hen, making sure the cord runs through the recessed trough on her underside

STEP 4: Clip Duo Lock Snap to the eyelet on the end of the Jakes tail feathers. Holding the handle, run the end of the line to your blind and make small quick pulls to perfectly mimic two mating turkeys.

GROUND BLIND HUNTERS: Cord may create noise when rubbing directly against fabric.
